Aviator Gives Wonderful Exhibition

for President Wilson, Members of Cabinet, and Others.

LOOPS-THE-LOOP HIGH IN AIR Long a favorite in Washington, Lincoln

tors, came back to the capital yesterday. Famous for thrilling his audiences, the

king of the air gave a series of won-deful exhibitions for the edification of President Wilson, members of the Cabi-net, army and navy officers, Congress-man and anybody who cared to see him fly. He flew over the Capitol, the White

House and other public buildings.

At II o'clock he left the Ellipse lot, lying toward the Capitol. The Capitol trounds, the roofs of surrounding build-

chine glide along while he waved both hands at the staring crowd. In addition he looped-the-loop three times and then sailed back to the Ellipse lot.

In his second flight he soured over the White Hoise, where President Wilson watched him from a window. A large crowd watched him from the roof of the

State, War and Navy building. When he

anded from his second flight Secretary of the Navy Daniels, Commissioner Frederick L. Siddons and other promi-
